APPARITION OF THE VIRGIN MARY IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZON DE JESÚS

Seven are the seals that will open and the scrolls that will be shown; the time is indicating this moment, dear children.

And to testify to this event that goes beyond all human consciousness, all understanding and intellectuality, today I have brought My little Son in My arms, because He is the one who entrusted, in the name of the Heavenly Father, the revelation of these mysteries, that will try to correct the human consciousness again and will bring to everyone the opportunity of receiving new principles and ways of life that, throughout the times, have been very far from humanity and from the planet.

The Divine Higher Consciousness is approaching the Earth to make its revelation and, not only My Immaculate Heart, but also the hearts of all Hierarchies of Light are testifying such an important moment for humanity.

Today I cannot reveal to you in details what this means, but welcome with love each one of My words because, as I told you today, My words are the action of the Grace of God in all human consciousness and upon the whole planet.

This higher and divine revelation, which is written in the deepest depths of the Heart of God, will bring to all beings of the surface the awakening and the awareness of having distanced so much from the Plan of God, as well as of having transgressed the universal Laws and all the natural laws of Earth.

However, through Mercy and Grace, the Heavenly Father has entrusted this divine intervention in humanity to His archangels and angels, so that at least one colony of this whole race can prevail at the end of these times, fulfilling and living, in a simple way, the same attributes of life that the Sacred Family lived.

This is the reason for having asked for the novena during nine days, for the sacred families of this planet, which must again recover the values that they lost when they submerged into the chaos and world illusion of these times.

I say "sacred families" because in the Essence of God, all are sacred children of God. Your essences have not lost the filiation with the Heavenly Father; only your more lower bodies have been distracted from the Purpose.

For this reason, the Revelations of God that will come in these times will bring to the human consciousness the elevation of spirit, of its human condition and the transformation of the human aspects that have conditioned the evolution of the race and the possibility of the awakening of the New Christs.

Today the Creator has decided, within His vast Spiritual, Mental and Material Universe, the revelation of His Mysteries, expanding the terms that are found in the Bible, the symbologies and messages; expanding and deepening even more into the terms of the Apocalypse, even more into the

visions that John the Apostle had, so that all this information, which comes from the Spiritual Hierarchy, may no longer be a mystery, but truths, clear and precise revelations of how to act and conduct this humanity in the end of times.

With My arm, I sustain the Child Jesus who is present here today, with you.

With My other hand, I sustain the scrolls of the Revelation of God so the divine information of what God has seen and participated in, throughout the times, since before, during and after the Creation, may start to approach your consciousnesses.

I know that this event will remove many structures because the impulse that will come from the Source will be extremely strong and will give the opportunity for each creature upon the surface of the Earth to be able to re-evaluate its life and consciousness so that it may define its spiritual life and path to be inside of the Paradise of God or to condemn itself.

Before the time of the second coming of Christ, this revelations will bring an impulse for each human being.

It will be by a state of Grace and Mercy that souls will have the opportunity of submerging into their awakening and opening to the sacred knowledge that vibrates and pulses within the Greater Universe, as little spheres of light that travel between time and space, from the Spiritual Universe to the Material Universe, with the intention that the spirits of all human beings may awaken to the great Divine Consciousness and to the greater knowledge that has always been alive in the Universe.

Only now, children of Mine, after a thirty-year walk, the time has come for your consciousnesses to define themselves within, to truly define, to allow the doors of knowledge to open above humanity and so that there may not be any resistance or obstacle for the Hierarchy.

Because if we are still here, it is for a universal reason, it is a purpose that your consciousnesses are still not able to reach. It is an infinite reason that was thought and meditated upon, since before your existence, so that this divine revelation, which derives from the Non-material Source of God, might come in this time, and before this planetary event.

In the past times, this revelation would not have been possible; it would not have been efficient nor effective because the human consciousness was not prepared.

And even though the human consciousness is very immature and childish, the times that will come, which will prepare the advent of Christ to Earth for the second time, will raise the consciousness of those who open from heart and soul to receive the divine revelation, so similar to the headwater of a river that quenches the thirst of beings and that nurtures the whole human consciousness, so that it can live and breathe, and thus carry on its evolution. It is in this same way that the information from the Universe will come.

This will make you mature consciously and will place your consciousnesses in the universal Purpose in the face of the great planetary adjustment of these times; wars, conflicts, division of families, illusion through modernities, spiritual blindness that generates many spiritual movements, believing that the human being is invincible.

Only love will make you invincible, My children, but you must live this school, you must encourage yourselves to enter this universal knowledge.

The first steps to live in this school of love and wisdom are registered in the experience of Christ on Earth and in all the teachings that He delivered to humanity.

There is no other Master for the present humanity but Christ.

He announced and warned: "Many will come in My Name and will be recognized. Many will believe in their words, but afterwards, they will regret having completely trusted in something that did not come from love and was not true."

With this, My children, before the Son of God, who is today in My arms, in the presence of the Most Holy Trinity, your must choose only one path so that you make room and give an opportunity for the divine revelation.

I want you to be conscious, My children, truly. The school of My little children is now over. It is time to prepare yourselves and to face the end of times, because the battle between love and indifference is not over.

You must conquer love, by living love and being love at every moment. Renouncing, sacrificing and loving. Silently surrendering each experience of life for the others, without anguishes and despairs.

Because, if in truth you lived a true spiritual crisis or were at risk of perdition, you would not be here, My children, as many, many are not and many have ceased to be, because they have been blinded by ignorance.

Only in the Father is the Truth for your lives. The human being must only learn to be true in the small details, so that after it can be in the great, assuming great responsibilities before the Spiritual Hierarchy, conducting and guiding the flocks of Christ, all races of the Earth that will need this spiritual impulse that descends upon this Marian Center, to be able to relocate their lives and find a meaning for the spiritual path.

Therefore, those whom I will consecrate today as Children of Mary will have a great commitment with Me, it will be a personal and group commitment between your hearts and Mine, a reason why you must pray, every day, so that these Revelations that God has decided to deliver to humanity, which overcomes the entire existence of the Church of Christ on Earth and all of the Sacred Books, may descend correctly and in a way protected by the Celestial Hierarchy.

But it will be necessary, My children, as in other times and in other Apparitions, that there may exist intermediaries, so that these revelations, which will expand human consciousness, can arrive.

I apologize for being so quick, the Time of God here on Earth is limited, because we must attend many more events that get worse within the race of this planet, in different regions of humanity, which need to be attended and helped by the Hierarchies.

Thus, you can understand, My children, that each Apparition of Mary, Christ and Saint Joseph, is not something else, especially in these definite times, where the transitions and its greatest apex will surprise everyone overnight.

Hence you must be prepared through this knowledge so that worldly inertia does not paralyze you and take you away from the path of light.

I hope you understand what I tell you. I am frank with each one of you because there is no longer any time.

Those who will consecrate today may come here. And playing the melody of your consecration, your souls will be preparing for this blessing that My Immaculate Heart will impart.

Because it will be necessary, My children, that you assume this commitment of consecration with responsibility and maturity, as My Heart was left very offended by those who abandoned their consecration, not only to My Immaculate Heart, but also to My Maternity, which cannot be defeated neither interfered with by any of your human aspects, not even by your own will.

The consecration that I deliver to each Child of Mary is non-transferable and undeniable. It depends on each of My children that this consecration may become a part of you in a true, sincere and honest way, because you will thus avoid, My children, entering into the chaos of humanity and in the great spiritual conflicts that many souls live today in the world by believing that they do not need God and not even to kneel down to supplicate to Him.

I only ask you that on this day of consecration, many more children of Mary re-consecrate themselves again interiorly, renewing this vow to the Mother of God, so that this inner and divine vow may be renewed with the Heavenly Father.

The Graces that I pour out cannot be wasted.

I want to tell you this, My children, with all the Love of My Heart, for each one of you.

Great parts of the world, entire peoples, different races and cultures, so similar to yours, are suffering for the lack of God and due to those who govern them, submitting and unjustly chastising them.

You, children of Mine, who have the grace and opportunity of being before My Immaculate Heart and the Sacred Heart of My Son tonight, must try to balance the misunderstandings and misalignments that the other part of humanity live for having set themselves apart from love, and because the most innocent are the most overpowered and the most chastised by the hand of humanity.

I need that you represent Me upon the surface of the Earth, as those stars of light that have once fallen from the Universe, but today they rise again, by the sincere offer and loving supplication of your Celestial Mother before the Heavenly Father.

As a sphere of light, today I deliver to your souls this commitment to pray for the next Revelations of God, in order that His Divine and Sacred Will may be fulfilled.

for the New Humanity to be born and emerge.
Amen.

So then, receive the energy of My Grace and be bathed by the Light of My Spirit, of My unconditional and serviceable Spirit, which is United in Soul, Divinity and Essence to the Heavenly Father, as to the Most Chaste Heart of Saint Joseph and to the Sacred Heart of Jesus.

I bless you so that in the next Nativity of the Lord, families re-consecrate themselves to living the Attributes of God in these critical times, so that love may overcome, light may triumph and all evil may be defeated by the divine intercession of Saint Archangel Michael. Amen.

I bless you, in the name of the Father, the Son and the Holy Spirit. Amen.

I thank you, children of Mine, for opening yourselves to listen to Me, because the only thing that I wish for is your wellness and well-being.

I thank you and listen to the song of your voices.
