DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF MONTERREY, STATE OF NUEVO LEON, MEXICO, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

My children,

The Divine Messengers have reached places on the planet where perdition and evil reign.

At this time, We send our missionaries to these places which are the most difficult, so that they may help us generate a powerful channel of liberation, capable of redeeming the most impossible things in the world.

While your Heavenly Mother makes them face these difficult realities of the human condition, at the same time the missionaries face their own inner processes so that through them they may become detached from the conditions that have made of humanity a decadent civilization.

For this reason, I ask you today to light the inner ray of neutrality in your hearts, so that all that is within and outside of yourselves may be purified in a harmonious and peaceful way without the need of coming to conflict or blame.

Each servant soul at this time will also learn to bear their own inner and outer conditions, and they will also have to deal with the different situations, experiences never lived before, to the point of knowing how to neutralize them through high degrees of love.

In this way, along with Me, I encourage you to loosen this very long chain of human mistakes. Through faith and Divine Mercy all will be resolved. Know that I am with you now and always; I do not abandon you.

I thank you for responding to My call.

Who contemplates you in Mercy,

Your Mother Mary, Rose of Peace
