**DAILY MESSAGE OF CHRIST JESUS, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS**

My Light will always liberate the world from sin but it will be necessary that day and night you remember Me, that you guard Me in your hearts and in your memories. It will only be through the constant Eucharistic union with Me that your souls will celebrate to be within the Temple of My Heart.

Those who condemn themselves day by day through the actions of life are still deeply subjected to sins. Pray for your familiars by means of the merciful prayer and permit that the Light of My Kingdom approach to each one of them.

I leave to you the commitment of making to decide for yourself if you want to be with Me in the face of any circumstance, or only when your little will may decide. In this time of definitions I will separate the wheat from the straw and this will not be done with My Blessed Hands, but it will be done by the souls that in this time are placing themselves on one side or the other side of the bridge.

Now the laws circulate on the Earth to realign the spaces that need much harmony. Only dedicate your time to be with Me including before "the great responsibilities," as you call them, because only in Me can you take the steps towards redemption.

Today I define you, today I gather you in My Operative Mission for the Great Plan.

Under the Love of God be blessed.

Thank you for meditating on My teachings with the heart.

Christ Jesus, Your Lord.
