DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAN ESTEVE - MONTSERRAT, BARCELONA, SPAIN, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN??

Dear children,

When the Grace of God, which is My Grace, touches the hearts of humankind, everything may revert and all may happen. It is only enough that such a Grace, which redeems and saves all things, be accepted with the greatest humility and gratitude of the heart.

Sincere prayer will always bring you closer to this perfect state of gratitude and of love for all that has been received. Hearts that pray must not get used to receiving Graces as if They were bread delivered into their hands.

The Grace of God is something greater, which goes beyond human understanding and reason.

The Grace of God is an extremely powerful balm of reparation and of healing of impossible causes.

That is why the Father consecrated Me as the Lady and Dispenser of all Graces, so that My children in all eras of the Earth and in all the stages of humanity do not forget that there is a greater Grace above all adversity, a Grace that My enemy does not know and fears.

My children, may your hearts be searchers for the Grace of God, not only for yourselves, but also for the world, which greatly needs It at this moment.

As the Mother of Grace, I give you knowledge of the power of this flow of the Grace of God, which is not well understood by all human beings; but if It were properly loved, miracles would keep on happening like rain falling from the sky.

Dear children, the Grace of God, just as the Grace that comes from the Most Holy Son, can vindicate souls and save them from their constant errors.

Grace is a Fount that synthesizes the powers of mercy, piety, and compassion, expressed in this case through the Sacred Heart of Jesus.

May the Grace of God always shelter and fulfill you.

I thank you for responding to My call!

Who dispenses upon the world all possible Graces,

Your Mother Mary, Rose of Peace
