**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????**

If you do not understand something that I tell you, enter the precinct of your own heart and there, seek to transcend the imperfections, the ideas about yourselves, the concepts already constructed around your own personality or even what you believe to be, in soul and spirit, because the Plan of God is completely unknown by the heart. Even those who are considered to be wise live in the same time and space of illusion, separated from the Supreme Truth. Thus, even though they may be able to glimpse something about the Superior Life, they will never be able to know it completely, but only when the time of God starts to be one with the time of this world and the illusion of you being alone, in an infinite Cosmos, disappear from the human consciousness.

For not knowing anything about the Plan of God, neither you know about yourselves, because you are part of a Supreme Creation, which, as a whole, is a great mystery for humanity. But the time will come in which the mysteries will have to be unveiled, because the Plan of God must be lived by His Creatures.

Contrary to what many think, the Divine Messengers are sent to the world so that you can live the Plan of God and not so much for you to be able to know it. That is why, throughout the centuries, we only delivered to humanity words that would lead it towards a new principle of life through love, faith and charity. And these principles, by themselves, would lead humanity to live according to what God thought for it. And after having lived and experienced the Plan of God, then, you would start being able to get to know it and to understand better the reason for you to live all those things and why you could not continue living the ordinary human life of the surface.

As the times are accelerating and the Kingdom of God is approaching the world in order to make it sacred and to remove it from illusion, the Divine Messengers give Their last great impulse to the human consciousness, trying to make it live the divine principles and, at the same time, understand, whatever is possible for it within its limitation, about the universal life, the Plan of the Creator and to where it is conducting you from this new cycle.

That is why I ask you that, before you listen to the Words of God in the word of His Messengers, you enter in the depth of your own heart and forget everything you think about yourselves, about humanity and about the planetary life, so that thus you may be able to find a door to get in touch with the truth of all those things.

I leave this reflection and the Peace of My Heart to you because knowledge must be always reached with the spirit of peace, since the transformation only occurs when it is guarded by peace, as well as the correct fortress builds itself with the peaceful heart.

Your Beloved Father and Companion of the Eternity,

The Most Chaste Saint Joseph
