DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??

Dear companions and servants of Christ,

Today I want to tell you about the essence of forgiveness and the importance for you to learn to forgive in this time and in the times that will come.

Forgiveness is the door to the redemption of souls. A consciousness that is truly forgiven releases itself from the chains that prevent it from following its evolutionary journey.

When you are not capable of forgiving something in yourselves or in others, you are locking not only your own evolution but also the evolution of all humanity.

In this current planetary cycle, souls will take initiatives impelled by uncontrolled forces that will emerge from their own interior and, they will often not understand the reason for their own actions.

Above all, those beings that do not know themselves and that ignore all that they generated in this and in other lives, will suffer from their own lack of mental, emotional and physical control during the stage of the most acute purification of the planet.

Many of those who accompany Our steps may suffer the consequences of these uncontrolled actions and, to impel the development of love in their own interior, they must learn to forgive.

The forgiveness about which I tell you is not mental forgiveness that the mouth proclaims but the heart does not admit. I tell you about true forgiveness, the forgiveness that, when it touches beings, transforms them and makes them realize the illusion in which the consciousness was immersed when it made a mistake. I tell you about the forgiveness that elevates beings and impels them to the discovery of true love.

You must learn to truly forgive, practicing forgiveness, from now on, at each instant of your lives. Forgive what you have never been capable of forgiving, above all, of yourselves, recognizing the ignorance and opening yourself to discover the truth of this Divine Creation that is the human consciousness.

All human beings that assume a path of transformation each day, cease to be what they were the day before. By understanding a mistake or a misconception, you must forgive yourselves; but forgive yourselves without neglecting the lesson, but understanding the reason for your mistake and consolidating the necessary learning in the consciousness.

Those who learn to forgive, My dear ones, will be closer to the liberation of themselves and from the atavisms of this material life.

Enter in the essence of forgiveness, with the recognition of a higher purpose.

I guide you and lead you to the redemption of all souls.

The Most Chaste Saint Joseph, in the Essence of the Forgiveness of God
