**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???**

Strengthen the truth in your interior and be truthful, not only when you are alone and know that you cannot hide yourself from God in your solitude.

Consolidate your purest aspirations and keep yourself in this purity as long as you can.

Remember the greatness of the Plan of God; also remember the suffering of the world and offer your transformation, thinking about what the world should be and observing what it has become. Both in the greatness of the Plan of the Lord as well as in the abyssal planetary situation, you must find the impulses not to be what you are and walk towards what you must be.

Seek a closer contact with God in the solitude of the heart and strengthen the purity of your interior there. The more moments of union with God you have on your day, the more easily you will keep yourself in the purpose, and will resist the temptations that present themselves before you.

However, if you elect to be before all the situations you already know you cannot overcome, instead of choosing to be in solitude with God and be truthful before Him, you will never be able to come out of the permanent battle against yourself. And it will not be necessary that the enemy approaches you, because you rush yourself to the abysses of your own consciousness.

Child, you already know that you are purifying the sludge in your interior; you already know that, very intensively, the temptations and the worldly desires that you still have inside of yourself call you to fall. Therefore, do not place your consciousness in unnecessary probations when the path of peace shows itself to your eyes.

Before rushing into the situations that jeopardize you, take a step backwards and head yourself to the solitude with God. Even it is for an instant, confess yourself to Him and renovate your aspiration of being in the purity of your intentions.

Strengthen the pure that exists within you and let the impure lose its strength and perish by the disinterest of your consciousness in relation to the impurities. Because what you are purifying today feeds itself from yourself and only remains in your interior when is it held by your own hands.

So, listen to what I tell you and do not hold imperfections and vanities, contemplating them before you: release them and turn your eyes to purity. Let your interior be

purified by the intensity of the Light of the truth of your essence, which must expand itself each day.

If you understood what I have told you, live it promptly.

Your Father, Guide and Companion of always,

The Most Chaste Saint Joseph
