**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA,
TO THE VISIONARY SISTER LUCÍA DE JESÚS???**

Child,

Do not let your days become mechanical and your life, common, "ordinary" to your heart. Do not let the rhythm make you automatic and the repetition of the actions remove the spontaneity from your being.

Observe yourself so that you do not get used to the chaos and to the internal and external disorder, so that the Armageddon of the planet do not become something normal to you and you lose the sense of your role in the Plan of God, such as many have already lost it.

You know it is human nature to seek adapting itself and accommodating itself to all the situations that present themselves in life, but this accommodation is a fruit of the influence of the forces of the inertia that do not allow the evolution of the consciousness.

Most human beings are, in this moment, trying to get used to violence, to terror and to the current chaos of the planet. Those who are minimally awake should be eager to remove their brothers and sisters from the sleep, because numbness is involving humanity.

Child, I tell you that so that you do not seek a comfortable, easy or "normal" space for yourself in order that your consciousness does not live the typical tension of these times. On the contrary, affirm to your sleepy cells that it is time to awaken and live in Christ each second, as if it were the last one.

It is time to listen to each message as if it were the last one and to seek living them as if it were the last moment to do it, because - in truth - it is.

Do not seek to adapt your bodies to the daily tension as a way not to feel bothered by the harassment of darkness, because from the moment you accommodate yourself in this current planetary scenario, the victory of the chaos will prevail in you.

Child, seek only to find the inner peace. Find your fortress in the divine purpose of the existence of this planetary cycle and be firm to bear all the currents that may descend to the world.

Do not fear to waver and, even, to fall; just stand up each time, because also Your Lord fell more than three times.

For the awakening of the human heart,

The Most Chaste Saint Joseph
