**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????????**

When the Will of God expresses itself in the Cosmos, Its Divine Word transforms itself into Creating Principles called Rays of the Creation. These rays projects themselves as Light over the consciousnesses manifested in the different dimensions and as they descend to the most material dimensions, they are subdivided into different expressions, each one according to the what the creatures can receive and live.

When the Divine Messengers come to the world, They unite the dimensions - from the Heart of God to the densest levels of the manifestation of life - and materialize, in all spaces of the human consciousness and of all that was created, the Divine Will.

When We instruct you in each detail about what you must do and how you must do this work, we are bringing the Perfection of God and manifesting the Rays which express His Will for all the aspects of His Work in matter, so that, by the means of symbols and of the most simple words, everything can express and radiate a part of the Divine Consciousness.

You may not understand why We dictate the small details of everything. It is for this reason that today I tell you that it is in this way that this Work remains sacred because the Consciousness of God is hidden in all that you express, and each one of these details, even if it is the setting of an altar or a webpage, helps in the salvation of a soul which will be touched by the vibration that the Rays of God, printed in these details, emanate.

Therefore, children, feel as manifesters the Divine Will in all that you do; bring the meaning of the sacred to your most material activities, because this way you will always allow the Creator to manifest His Will on this planet.

Offer to God all that you do and always ask yourselves what He expects to express through you, because - even if that seems very distant from what you do, from the Core of all that has been created, the Lord observes you and awaits that you can be creating consciousnesses, just as you were thought originally.

That just as the angels and archangels manifest universes and materialize the Will of God, creating the new essences which are born in the Cosmos, may you also express this Will in all that you create, in matter and in spirit.

I leave you My Blessing for the manifestation of this Sacred Work.

The One who expressed the Will of God, even though in a carpentry shop,

The Most Chaste Saint Joseph
