DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED AT THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????????

The Lord has resurrected! and He has dissipated darkness, fear and the absolute solitude of the hearts of humankind.

The Lord has resurrected! and He will be able to resurrect every day within the dead of spirit who, awakened by the Love of Christ, accept redemption.

The Lord has resurrected! to demonstrate to humanity and the whole universe that whoever is united to God transcends the laws of this world, including the more material ones that rule the natural course of human life.

The Lord has resurrected! to demonstrate that love has no limits and that those who surrender life for love receive, in exchange, eternity with God.

All living beings are natural heirs of the Power of God and of all His Grace. It is only necessary that you accept to live as His Children and that you recognize yourselves as such, living to manifest His Will, no matter what it may be.

The Creator is the great owner of this Enterprise of Universal Life. To take forward His Work you will have to serve Him and follow His Steps so that one day you may become a unit with the Father and have, by Grace, the possibility to take forward His Plan.

Give glory and thanks to He who shows you the path, by means of His Resurrection. Believe in the living presence of Christ among all, closely guiding this Work of the Father on Earth. Unite with Him and with the codes of His life, of His Passion, of His Death and of His Resurrection, because it is time for these codes left by the experience of Christ to multiply and find new dwellings.

Your Father and Friend,

The Most Chaste Saint Joseph
