DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??

Just as Jesus carried the Cross of sins of the world when He was on Earth, today He continues carrying all the faults of humanity, faults that increased and multiplied themselves, faults that very often became unforgivable.

Christ carries this Cross because He knows that only such a great love like this one that lives within His Sacred Heart is capable of enduring this Cross. Only the Love of God inside His creatures can endure the evils caused by humanity not only physically, but mainly spiritually.

Children, Jesus invites you to love as He loves, to allow yourselves to be permeated by God and, in this way, revert the present situation of this planet. Do not think that you are only a few among a multitude that walks in darkness. Trust only that you do not know the potency of this love that - for being so immense - would not fit entirely in a small human heart. This love must be lived by all those who call themselves soldiers, companions and apostles of Christ.

In face of the Passion of the Lord, contemplate the spiritual facts and not so much the material ones. Contemplate the potency of the Love of God that found its dwelling in the torn Heart of Jesus. This wounded Heart became large when He pardoned His wounds and this was how God Himself could love within Him.

Live this Passion within your days: forgive those who mistreat you, let yourselves be humiliated by those who offend you, love without limits, serve independently from the results that if those who you are serving deserve or not His love. Love as Jesus because He loved as God.

The Father is negated, insulted and forgotten by humanity and even so He continues being God, He continues being Father, He continues to take care of each human heart. And, as if this were not sufficient that He has sent His Son to suffer the human actions and convert them in love, He sends Him in spirit throughout all the existence of humanity and He will make Him return to the world to materialize His Work.

This is the Love of God and everyone, as humanity, has the Grace of the possibility of living it. It is time to open your heart and to surrender your own dwelling.

Your Father and Instructor, the One who allowed Himself to be inhabited by Christ,

The Most Chaste Saint Joseph
