MESSAGE FOR THE APPARITION OF MARY, ROSE OF PEACE AND LADY OF THE HOLY ROSARY OF FATIMA, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Beloved children,

Today My Rosary extends all over the world and, from the Inner Center of Fátima, where purity lives, I make each bead of My Most Holy Rosary travel through the abysses of the planet, through the nations in conflict, through the homes without peace and in the hearts of all those who unite with Me in prayer.

My beloved ones, I come as Our Lady of the Holy Rosary so that humanity recovers the purity which it lost from its heart, through the simple prayer of the Holy Rosary.

I come as your Holy Mother of Fátima to tell you that it is in the exercise of prayer that the heart strengthens and prepares itself to enter into the celestial mysteries. When you pray with the heart and abandon the worries of this world to dedicate yourselves only to pray, with your whole being, your hearts become mirrors of light that capture the peace that I wish to radiate to the world from My Universe of love, and reflect it as a spiritual attribute to all the planet.

Many of My children have forgotten the life of prayer, and even though they do not find peace and admit the degeneration in which this world is found, they prefer to proudly unite with chaos than humbly surrender to the life of prayer.

Children, those who pray discover the truth because they unite to the Truth itself that is the Consciousness of the Higher God, and in this way cause the illusion, which was blinding them, to fade away.

There is no mystery that cannot be revealed to the heart that prays with sincerity because this heart knows the non-limitation of God and does not reduce the expressions of the Creator and the greatness of His Creation to the small human comprehension. Therefore, children, I wish that you pray each time more deeply, so that your hearts are ready to find the reality that until today was invisible to the majority of the human beings.

I want you to strengthen yourselves not only to face chaos with bravery and in union with the Divine Purpose: I also want you to strengthen yourselves in order to enter into a reality that transcends all the material life and that in no way resembles what you know today.

I want you to strengthen yourselves in order to see the mirrors of Fátima lighted and to read the true history of humanity in them.

I want you to strengthen yourselves in order to see the mirrors of your hearts lighted and see reflected on them the truth of your spirits, because just as chaos reveals itself to the world and the atrocities are no longer hidden, are no longer a secret, in the same way, children, the true history of this humanity will also be revealed, and not just a few will recognize it. Every living being and all

those who died in ignorance will see before them this history reflected on the mirrors and it will be the moment to define their own evolution, to embrace the Divine Purpose, or to step back and remain in the absolute illusion that was involving you.

My children, prayer is more than an instrument of peace and redemption: prayer is a door to the Universe of God, it is the bridge that removes you from human blindness and leads you to the horizon of truth. That is why, children, as Queen of the Holy Rosary, today I ask you to pray with Me so I can awaken for the higher life, on this day, as many as those who pray and search for peace.

Pray so that your brothers and sisters will remember My Immaculate Heart and, so that, with a simple thought sent to Me, I can work the miracle of awakening them to love.

Pray, children, for the peace among humankind, and in the Kingdoms of Nature.

Pray for the establishing of My Kingdom and so you can be worthy to see this Kingdom emerge on the surface of the Earth.

I bless you today and always,

Your Mother Mary, Rose of Peace and Lady of the Holy Rosary of Fátima
