DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???

Heal your spirit in the union with God and finally discover the meaning of your life in this divine union.

Child, there is no plenitude but in the union with the Creator. There is no real meaning to human existence if the hearts of the human beings do not become a bridge between the material life and the divine life, thus crossing all the dimensions of existence and opening the path for all the creatures to live this union.

Today, child, you behold that many of your brothers and sisters lose hope in life on Earth. Others walk as if they were lost and blind, without knowing where to go or what to search for. And others, for not finding something that motivates them to live, search in distractions, pleasures, drugs and illusions a meaning for life. But these last souls are very unhappy and soon will feel the emptiness that this life brings them.

If the soul does not find God, it does not know for what it is in this world, because there is no other reason for the human existence but the union with God, through the forgetfulness of oneself and the absolute love.

I tell you this, child, because in the present days as in the days that will come, you can be a beacon in the darkness of the world, indicating the path for those who are lost.

Through your union with God and with His Plan of Love, you will never lose the joy and spiritual stimulus to continue living, surpassing the obstacles within and out of you and discovering a power that does not come from your heart, so that you will keep standing in the times of a major planetary chaos. This example will make your brothers and sisters search for this source that nourishes you and they will find, at the last moment, this real path.

Understand, My child, the importance of you really uniting yourself with God, with your neighbor, with the Kingdoms of Nature; the importance of you living these words and becoming a live book of instructions that We bring to the world.

Because time will come when you will no longer have how to study, to research and to search for the path as you do now. It will be by seeing the live example of the neighbor and by imitating them, that the souls will arrive where they should arrive: in peace, in redemption and in unity with God.

I leave you, child, My last instructions of these times and I will not say anything else, but how to live them, because that is the most important now.

Your Father and Instructor,

The Most Chaste Saint Joseph
