DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF DURAZNO, TO THE VISIONARY SISTER LUCÍA DE JESÚS

The greatness of living inside the Laws and the Purpose of the Creator is that, amidst the ignorance of the majority of human beings, you can discover the truth about yourselves.

Children, it is when the heart offers to serve and obey the higher designs, even if it does not understand and know them completely, that the greater Laws permeate your lives and lead you to the awakening of the potential that you hold as creatures of God.

When you accept to follow these designs, you must plunge with the whole of your being into this true adventure that is, for humanity, the discovery of itself, of its origin and of the mysteries of the planet on which you live.

When you are capable of loving the Plans of the Creator more than your own plans and more than yourselves, you will see that other possibilities of understanding will be given to you. You will be able to awaken the power of intuition and the deep feeling of your hearts, and will no longer need so many explanations for the mind, because the heart will be the true knower of all things.

If you plunge into the infinite of the Divine Consciousness, you will not doubt the vastness of His Plan and the more it is revealed to you, the more you will seek it, and the more open you will be to come to know it, because you are a part of this infinite Creation. Just as the Creator expresses Himself in so many ways in the Cosmos, He also created, in the human beings, an infinite potential still unknown by all.

Children, everything begins by saying "yes" to God and letting His Laws invade your lives and transform you, placing you in the correct point of awakening and maturing of the spirit.

Today, once more, I thank you, because - by responding to the call for prayer for Uruguay and by placing all your heart in the sincere response that you emitted to the Universe - you opened new possibilities for the awakening and for human evolution.

Perceive that it is in the simplicity and sincerity of your hearts that the keys to the unveiling of the potential of true love are kept.

Keep this experience inside you and let your evolutionary path leave now from this level to new stairs. Keep climbing in eternal ascension.

The one who follows your steps,

The Most Chaste Saint Joseph
