DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS?????

The essence of humility is searched and loved by very few.

Many are those who say they want to be humble, but how they fear, child, this sacred humility. They do not recognize the greatness which there is in being nothing and the smallness and the poverty that hide in wanting everything, in possessing everything and in believing to be everything.

Ignorance blinds the eyes of those who believe themselves to be cognizant of everything. Vanity hides itself in those who search humility by competition, by pride, by wanting to be holier and wiser than these or those. And therefore they want to be humble.

Child, often the vanities also hide themselves in those who think they are simple and who take pride in being the last ones, for not being recognized and for not having great responsibilities, because they believe they are humbler than the others.

Any thought about yourself, child, is great vanity.

As a human being does not know themselves, their origin and the reason for which they have come on Earth, they will always be distant from the truth and, therefore, any speculation about themselves will be full of ignorance and, consequently, full of vanity.

To recognize that you do not know anything is always the best medicine. To resort to God, who is the only one who knows all things, is the best refuge. And to live to fulfill His Plan, resigning your own will to His, without thinking anything about yourself, is the best path not to lose yourself.

Child, to be humble is, at the same time, simple and very difficult and, sometimes, unattainable.

It is simple because there are no mysteries: live for the plan of God and forget about yourself and soon you will be inundated by the truth of being nothing. There is humility.

It is difficult and unattainable because the human being never searched for the path of humility, never searched for the path of nothing. Always searched for the path of everything: to be everything, to possess everything, to reach everything, to know everything. The path of everything for yourself is full of ignorance. There is nobody more ignorant than the one who believes to know everything. There is nobody more

distant from the truth than the one who believes to be truth itself.

If you really aspire to fulfill the Plans of the Father for you, child, serve God in all things and abandon yourself. Do not think about yourself for anything and in everything obey and resign your own consciousness.

To be nothing, you must not search for anything, not even for emptiness. Put your consciousness in God and in His Plan and only that. Live to manifest it. Among the greatest mysteries there is the mystery of being nothing. In the nothingness, you will find everything.
