DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE CITY OF LOS COCOS, CÓRDOBA, ARGENTINA, TO THE VISIONARY SISTER LUCÍA DE JESÚS?

Awake the essence of hope in your heart. But not the hope you know in this world, but rather the one that comes from the Heart of God.

Awake in yourself the divine hope, a fruit of faith and of the certainty of the Perfection of the Creator.

Put your hope in something higher, in goodness, in light, in the divine Purpose for each creature and for the planet.

The hope that you know in this world is something that often only nourishes the human ego, something that makes you persevere in the fulfillment of your own will and that does not allow you to weaken before the challenges and the trials of life, because you believe that what you want, some day, in some way, will manifest itself.

I speak to you about a different hope: the hope that is placed in the Plan of God and that does not know the way that this Plan will materialize itself on Earth, but trusts that everything will happen as the Creator hopes for.

The origin of the hope of which I am speaking about to you is the divine Will and not one's own. Therefore, this hope does not bring frustrations, sadness and bitterness, because there is not a self purpose which is awaited with faith.

Put, child, the consciousness in God and await in Him for His Will to manifest. Be willing to be His instrument, at His service, for His Will to be fulfilled, and allow that this awakening of hope renews your strength and your joy to serve, because you know that, although you do not understand the Paths of the Father, they will reach the right goal, which is His Divine Will.

Hope is nourished by faith and expresses itself in the joy of the heart.

Faith renews and gives strength to the fallen ones; therefore, before the difficulties of the planet, always cultivate hope and, with your example of persevering in it, multiply it in the hearts of the world.

For the awakening of the divine hope in the hearts,

The Most Chaste Saint Joseph
