

The Beatitudes of the Virgin Mary

On [November 17, 2012](#), the Divine Mother transmitted Her Celestial Beatitudes to us so that we may contemplate and preserve them as the aspiration of Her Heart of Mother for all humanity. She said:

"Dear children,

With you full of joy and happiness, without you losing hope and the joy of being within My Immaculate Heart, today I announce to you that God will send Me, to be among all souls, to bless them and prepare them in the name of My Son Jesus, for the times that will come.

Therefore, dear children, may your beings not tire of praying from the heart, of praying for the conversion of the world. As in Medjugorje, My Immaculate Heart reaches you in order to demonstrate the Love of God and the Power of His Divine Mercy, so necessary for the life of all My children in the world.

This request of the Most Highest has a spiritual and universal goal. Therefore, dear children, may your consciousness know that they will be before My Celestial Blessings, those which today, in the name of the Love of God, I will deliver to you today so that you may contemplate them as an aspiration of My Heart of a Mother for all of humanity; a humanity that is tired, debilitated and with little faith.

If, in the name of all My children, you contemplate these intentions of My Immaculate Heart, you will help in the conversion and in the redemption of humanity."
