DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Children,

Each mission will bring you a new learning and a new form of understanding life.

The real reason for the existence of the group of missionaries of peace is not so much the material service that you do, but rather the act of going towards the need of your neighbors to heal the roots of evil that placed them in this condition of needy.

The most important is acting with the heart, and the experience - that you place in the human consciousness - of this learning of service. With your indigenous brothers and sisters you have learned about meekness, a meekness that transcends the material reality in which they live.

These brothers and sisters of yours had everything - because they were united with all things, with the whole life, with the Creator - and everything was taken away from them, because they lost almost all their possibility to express themselves, and in many cases they no longer have a vehicle to unite themselves to God, that is, a natural environment, preserved and harmonious; they only have their own inner world.

The indigenous consciousness, in spite of everything, does not cease to teach something to the human heart, because at this time, children, even if they are not able to express themselves as a people, as a culture and as an essence, they are placing in the consciousness of humanity as a whole, the principles of perseverance, of strength, and of peace, independently of the state the world around them is.

I do not say with this that your brothers and sisters do not suffer with the state of degeneration of the planet, because the sorrow of these hearts and what they carry as pain in the indigenous essence are not understandable for the modern human being of nowadays.

What I tell you is that peace inside them - in spite of the suffering, misery and oppression - is something that remains. The fight for not being corrupted by the present forces is constant and hard for everyone, but they do not lose faith in remaining as a people on Earth, and even in being able one day to return to the origins and recover the purity they are losing.

Learn with this faith so that when time comes to rebuild the Earth you do not lose peace and the certainty of being able to keep standing and to recover the likeness with God that you have lost along so much waywardness.

I leave you My Peace and My wishes that new missions might arise.

May those who committed themselves with service and with living the Christic charity wake up.

Your Father and Companion in missions,

The Most Chaste Saint Joseph
