DAILY MESSAGE OF MARY, ROSE OF PEACE,
TRANSMITTED IN THE CITY OF SAN ESTEVE - MONTSERRAT, BARCELONA, SPAIN,
TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN???

My dear children,

The Love of God is the source that nourishes the whole of Creation and life. Towards this source you must go so that your spirits are in the Lord. This source of Love also expresses itself in different ways and degrees in all of Its children; but some consciousnesses take possession of this source and it neither fulfills nor carries out the mission that it has come to accomplish.

The Love of God manifests in creatures in different degrees, according to the inner work done by each consciousness in order to awaken it.

In this time, love is used in favor of and at the convenience of many, which sooner or later, My children, causes the soul to discover its spiritual failure, to discover the unreal world that it has created by its own means.

The Love of God is much broader and it cannot be restricted to a consciousness or a form. The Love of God is a Spirit of Peace and of harmony that impels consciousnesses to become united with one another even though they manifest different degrees of love.

Human love is the other pole of Divine Love; it was a false current created by the adversary so that souls would feel ever more full of themselves and benefited through their own gains. But at some point this false love collapses through its own weight and the soul becomes consciousness of how much it has been deceived.

True Love has neither price nor limits; it is a fountain that renews, comprehends, and accepts human imperfection. When souls do not seek this love nor are able to see it reflected in their brothers and sisters beyond themselves, they live the misfortune of fictional love. This causes them enter an unreal emptiness and they constantly create conditions to seek benefits and conveniences.

We must pray for these souls, because Divine Love is neither a choice nor a prize. The Love of God is found when the soul opens its heart and in repentance, asks for the presence of this love.

The Love of God defeats the powerful and those who believe themselves to be more than others. When Love touches the depths, it is invincible.

I thank you for responding to My call!

Who leads you to live the Love of God.

Your Mother Mary, Rose of Peace
