DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

The Communication Network of the Heavenly Mirrors

In the vast Universe, where infinite life expresses itself, there are specific areas within the material universe such as yours, where networks of Mirrors act as re-transmitters of divine energy currents, as well as of impulses generated through the first seven Rays.

In this huge communication network, evolutionary life manages to communicate within itself, and at the same time, all universal life spiritually and internally receives the impulses that such a network generates.

We understand a network to be an extensive group of spiritual instruments of the Heavenly Hierarchy that is used to keep all evolutionary life in communication with the principles of God, which in this humanity is known as Divine Will.

It is this Divine Will that comes from the Fount of Abba, which is universally re-transmitted through the communication network of the Heavenly Mirrors.

Just as in the material universe there are Mirrors of light that fulfill specific tasks, the network of all Mirrors interrelates with itself, and each of these instruments brings to universal life the possibility to expand its knowledge as well as that of working in service to the Creator.

The mirrors are formed by subtle emanations of love of the Creator Fathers, of the Elohim. In the beginning, when the universes were created, the first way to keep all universal life in communication was through what we call Heavenly Mirrors.

Thus it was that the Creator Fathers asked Their angelic armies to create, with their higher mental power, great pools of light in the material universe, which later and throughout time would be converted into the so-called Heavenly Mirrors.

The Heavenly Mirrors were created from the fusion they experienced with the divine codes of love and unity; it was the essential base that would allow all beings living in the Love of the Father to enter into contact with the spiritual treasures kept in the communication network of the Mirrors.

At the request of the Archangel Uriel, the creator angelic armies generated the first network of the Heavenly Mirrors in the material universe, known as the first Heaven. Later on, when the Mirrors had already been created by the spiritual currents that the angels had brought, the same Mirrors were unfolded on six planes or six Heavens, so that they then could be present in all universes; that is to say, in the material, mental, and spiritual universe.

The communication network of the Heavenly Mirrors is present between the first seven Heavens; it is in this way that a great spiritual, mental, and material communication is established in all universal life, and each consciousness that forms part of the Creation of God is integrated into this

very potent flow of knowledge and evolution.

It was the Archangel Uriel who entrusted His angels with sowing the essence of love and unity in the Heavenly Mirrors; later on, the Archangel Rafael sent His legions to pour out principles of healing and redemption in the whole material universe. After Archangel Rafael, the Archangel Gabriel sent His messenger angels to place in all the Mirrors the sacred knowledge of Creation, so that some day it may be revealed, as it is today.

Lastly, to protect this divine legacy, the Archangel Michael sent His hosts of light so that for all eternity they may be the doorkeepers of the Mirrors, who would unconditionally and in service to God protect the relics of Creation.

Thus it was that when the communication network of the Heavenly Mirrors was formed by the intervention of the Creator Fathers and by Their hosts of light, Abba decided to send a potent impulse of divine and universal Love to the material universe and it was through the Sacred Feminine Energy, through the Father-Mother Essence that He would deposit the principles of Mercy and Pity over the network of the Mirrors.

The Archangel Gabriel tells us that when this event took place, all universal hosts were prostrate during three days of divine time to thank God for having made rise from within Himself the feminine aspect of Creation, today known as the Spirit of the Universal Mother or the Mother of the World.

In that time all Creation was being ordered and prepared for the first evolutionary experiences.

In that time, Abba Father universally considered that created life would need a Maternal Consciousness sufficiently loving and merciful to the point that the Father would send Her to Earth to incarnate as the Mother of the Messiah of Israel.

This act of universal mercy also allowed the communication network of the Heavenly Mirrors to be supported and accompanied by the Mother Consciousness of God.

The first revelations about the Mirrors appeared in the 1970s through 1980s, when the Celestial Hierarchy decided to reveal this divine secret that has been present and living for millions of years, after humanity was at the brink of self destruction several times.

The Father granted the Grace that the human consciousness remember its mission in the Plan, and the Universe granted that humanity might awaken to the truth from which, out of ignorance, it had separated for many centuries.

The communication network of the Heavenly Mirrors has allowed this planet to continue to exist in Creation, and above all, the Mirrors have generated the equilibrium of the axis on the Earth and of the poles.

If this silent intervention had not taken place, the race would already have self-destructed, and this unconditional help from the Mirrors has come from the moment in which the aspect of the Firstborn Son of God arrived in the world to save it on all planes of consciousness.

So the awakening is being granted to all, irrespective of the degree of debts. The Plan of rescue of Christ is already active and all will have the last Grace of being able to respond to it.

May the network of the Heavenly Mirrors represent for all the opportunity to remember within themselves that they are consciousnesses created by God, and that they can learn how to love and mirror unity to the entire Universe without the overbearing need to destroy the planet.

I thank you for responding to My call!

Who is united to the mirror of each praying heart,

Your Mother Mary, Rose of Peace
