DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Meditate on this day about your return to the Origin and do not seek the mental concepts, that inside of your consciousnesses, become confused by the distance that exists between what humanity knows about the Truth and the Truth itself.

You are in a time in which you will receive many keys, in order that, in a harmonious way, the being may find the unity with the Creation and recognize itself inserted into it, inside of its laws and in obedience to the course of its evolution.

I know that many feel without the inner and outer resources to meditate concerning something so sublime and apparently so distant from you. But the Origin, as well as the whole history of your spirits, can be found inside of your own hearts. What happens is that you occupy yourselves much more in thinking of the non-existence of all these things, or even thinking of how they are inaccessible to you, than of seeking them and to follow the instructions that I deliver to you.

I only ask you to be humble, so that you do not confuse and interpret, with the mind, what only the heart can understand. Because in the same way that the mind takes many resolutions that the heart does not understand and does not accept, the heart also has within it truths that only it can understand.

The time of this world, marked by the hands of the clock, is already ceasing to exist, in order to give way to an eternal time, in which only the present is the reality and everything else is kept as an experience in the consciousness.

Hence, you must start, from now on, to deconstruct the concepts of the human existence of life upon Earth and also the concepts that you have formulated in your minds about God, His Plan and all of the Creation, because the Truth will come to light and It resembles nothing of what you know.

The human consciousness has mixed principles of truth with fantasies in all means of communication of the world and, thus, has given a sign to itself that the only truth that existed was a great illusion in which you were living in matter.

I ask you, once more, that you listen to Me with the heart. Contemplate your own interior and seek there the truth about yourselves and the unity that exists between what is alive in your own essence and everything that I tell you.

I love you and because of this I give you small keys and impulses to the awakening of your consciousness.

The Most Chaste Saint Joseph
