DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF BELO HORIZONTE, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

When a soul awakens, it is like a rose that opens to receive Grace from the Source. Then, a Law deeply exchanges one state for another, and the consciousness participates in the beginnings of Transfiguration.

Thus, dear children, the reintegration of a being on the path of the Hierarchy confirms the fulfillment of one part of the Plan.

In this definitive time, all those who are awakening participate within a spiritual science that is changing the old being into a new being.

In this way, the consciousnesses that awaken are supported by a Law that they could not access before due to being connected with the things of the world. It is like a different fluid that starts to act in the consciousness that acquires knowledge of the truth.

In order that the process of awakening may happen in a harmonious way, the consciousness must not lose the aspiration of serving and working in the name of Higher Love, this is how everything will be protected and the self-summoned will be permeated by a new Light.

The time indicates the moment of a great awakening for the true task.

I thank you for responding to My call!

Who blesses you and supports you,

Your Mother Mary, Rose of Peace
