DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAO CARLOS, STATE OF SAO PAULO, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

To all the choirs of the Meeting of Music for the Healing and Upliftment of Humanity:

My most favorite singers in the world,

United with you, let us today implore God for the pain of the world to be alleviated and for all the souls of Venezuela to find again the path toward unity, the good, and the Mercy of God.

Opening My arms and stretching out My humble hands towards you, Your Heavenly Mother pours out Her most intimate Graces of healing and of liberation over Her beloved children of Venezuela.

It is for this just cause that I have come today from the Greater Heaven to ask all the choirs to offer their song and their music to God, to implore inwardly that through the meeting of this day, the grimmest situations of My adversary be deactivated in the consciousness of that country.

With respect and love, I request that all the groups of prayer of the planet and especially of the Americas gather together every nine days so that united you may offer prayers and pleas, penitence and sacrifices, with the goal of repairing the offended Heart of God, upon seeing so much inequality and lack of humanitarian help in Venezuela.

I implore all the choirs of the Meeting of Music that today they offer their instruments and their voices as a task of redemption for Venezuela and the world.

My wish is that after this message, your hearts and lives feel motivated and prompted to intercede on behalf of all My children of Venezuela. The planetary crisis will gradually engulf some nations.

Because of this, with the necessary consciousness and with the whole spirit blazing in a profound love, let us get to work! It is time to help those who are most in need, both in prayer and in charity.

I thank all the choirs of the world for making an effort to respond to My call.

Who loves you and blesses you in piety for the whole Venezuela,

Your Mother Mary, Rose of Peace
