DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF ORLANDO, FLORIDA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

To close the eyes to superficial life and open the consciousness to non-material life

Dear children,

After having been on pilgrimage through the United States of America, crossing the nation from one end to the other, your Heavenly Mother, by request of the Father, finishes Her pilgrimage in Orlando, a place where illusion and fantasy are the main content of the life of many souls, which we call entertainment.

To close the eyes to superficial life and open the consciousness to non-material life

The Father has sent Me to bring a little consciousness, and in this way, be able to remove from deceit millions of souls that are submerged in this plane, and most of all, who confirm it and believe it.

The children are the main object of the elaboration of gruesome plans, coated with beautiful artistic fantasies that cause all the attention to be placed on the superficial, leaving consciousnesses very hypnotized for quite some time, without reasoning ability or logic and with a lack of discernment.

To close the eyes to superficial life and open the consciousness to non-material life

The Plan of My adversary was well made, because through entertainments, people forget they have a soul which is capable of evolving and of growing spiritually.

In this way, the inner senses of the consciousness are blocked and replaced by external stimuli, filled with fanaticism, desires, and ambitions. All these effects have an impact on the spiritual plan of the soul, especially when a life of prayer does not exist or is not practiced.

To close the eyes to superficial life and open the consciousness to non-material life

The games that the world offers at this present time encourage constant competition and separation among people, leaving great gaps in the space of the consciousness that are used to inseminate codes opposed to love and to truth; for instance, codes of power, of ownership, and of excessive consumption, generating an imbalance in all the planes of consciousness.

Entertainment was a complete deviation from the Purpose, because it was an energy that from the beginning attracted other false needs, capable of controlling and of manipulating the life of people through systems created for this purpose.

To close the eyes to superficial life and open the consciousness to non-material life

In this sense, entertainment generates in all bodies an illusion of mental rest and a supposed joy that

pleases the plane of emotions.

If all this is observed with maturity and wisdom, it can be perceived that there is absolutely nothing spiritual or evolutionary that exists there. The life of souls that are submerged all the time in this lower field of consciousness is within this roulette wheel game, from where it is afterwards very difficult to emerge.

Determination and discernment are also discouraged in human beings, to the point of leaving the consciousness highly dependent on something that is purely artificial and fictional.

To close the eyes to superficial life and open the consciousness to non-material life

If at this time souls are still submerged in these realities, such as entertainment, and allow themselves be constantly abducted by the codes that My adversary radiates through the systems of entertainment and of leisure, humanity will remain in a subliminal state of hypnotism and of profound indifference, since their inner senses will be deactivated and disconnected from consciousness.

Those who awaken to higher life and still do not know it, must make the greatest effort in the name of humanity in order to be able to balance, before the Universe, what millions of souls live all the time in opposition to true essence and true evolution.

To close the eyes to superficial life and open the consciousness to non-material life

In this incarnation, souls lose the chance of living self-knowledge and of penetrating the universe of spirit. Only when the soul abandons the material bodies, does it become tardily aware of the deep illusion that it was living; and then it is taken to another plane, to another school of learning known to souls as Purgatory, where they learn how to settle and to balance what was not learned in incarnated life.

To close the eyes to superficial life and open the consciousness to non-material life

Because of this, in this hour, it will be important for all to know that humanity resists learning about higher life, because it is constantly immersed in the ambiguity and in the restlessness that is generated by the living of material desires, which have no inner meaning, and even less a spiritual one.

Many souls will become aware of their degree of illusion when it is too late. In this way, the Mother of Love approaches one of the cities in the United States that rules a large part of the planetary consciousness, making it dependent on entertainment and on fun.

To close the eyes to superficial life and open the consciousness to non-material life

In an extraordinary and inexplicable way, your Heavenly Mother has received a higher permission to descend over a city, such as the city of Orlando, to leave certain seeds of light sown in the depths of inner beings, which in the future will bear fruit for the new times of the planet.

It will depend on each soul and on each being to decide to abandon that illusion, which is already part of a dimension where souls live a personal hell, created through the results of games and of

entertainment.

Even those capital energies will be purified during the acute cycle of humanity. The time has come for the soldiers who are awake to offer their prayers for all of this reality that causes the planetary consciousness to descend toward the lower planes, and in this manner leading the subconscious to depend on totally artificial and lifeless recreations.

I hope that the most awake may work double on behalf of those who are sleeping and those who do not have the inner resources to break away from this.

To close the eyes to superficial life and open the consciousness to non-material life

The closing of this pilgrimage in Orlando will try to leave sown in the consciousness, an awakening capable of making it possible to rethink the forms in which millions of people live in the world.

It is for this reason, dear children, that every day I invite you to close the eyes to superficial life and open the consciousness to non-material life.

I thank you for responding to My call.

Who loves you and blesses you,

Your Mother Mary, Rose of Peace
