DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN MOUNT SHASTA, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

I come on this day to re-establish within the consciousness the communion with love and peace, for the doors to open to the inner brotherhood that each soul is invited to live. Thus, what you call "fraternity" will begin to be a daily exercise that may place you closer to the Purpose that the Universe presents for each new stage.

It is so that your Heavenly Mother comes to help you as a humanity to transcend human limitations, the same that Your Master of Love offered Himself to liberate them through the divine experience of love.

In this sense, dear children, by openly knowing the experience of the degrees of love, you will not have to live feelings of rancor or disharmony, but your hearts will open themselves to understand others through self-transfiguration.

Little by little, your lives will be able to start losing fear and you will liberate yourselves from all the conditions that have placed humanity in a position from where it has not been able to come out of or advance from.

How can you begin?

It will be enough, My beloved ones, that your faith be stronger than your weaknesses and all the falls. Your conviction must be focused on deepening into the degrees of love, which will place you at another point of the experience, and where your small spirits will enrich themselves by living love as the essence and as the inner path, which will also allow you to come to know forgiveness, and this very fundamental attribute will liberate your souls from the chains and obstacles of consciousness, when you only accept to live it.

Love each moment, even if it is difficult, because this school of the planet will only make you grow in love and truth.

Be patient and do not close your hearts, because each brother and sister, each being similar to you, must also transcend their own human condition.

The unity, that is unbreakable when it is impregnated by love, will help you, believe in this.

I thank you for responding to My call.

Who gives you inner strength and courage to continue,

Your Mother Mary, Rose of Peace
