DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SAN FRANCISCO, CALIFORNIA, UNITED STATES, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN?

Dear children,

The reason for My coming to the United States is also to try to spiritually recover the essence of the families in the face of the facts of indifference and disharmony, which are experienced in this nation.

I will try, by all inner means possible, for the souls of this country of North America to remember that, in essence, they must recover the values of Christianity and peace so that the families from here may stop being artificial and influenced by materialism.

Thus, by the power of prayer and the perseverance of all of you, your Heavenly Mother will try to awaken the consciousnesses and, even more, the inner hearts of those who have them closed to the Love of God and those who have them open to indifference and continuous modernity.

As your Mother, I will try so that at least a small group of souls, in representation of many more, may be the depositories of the Gift of wisdom and science so that these spirits, these North American and age-old consciousnesses, may awaken to their inner truth and to the source of love among beings.

My purpose will be to pour out light and love where it no longer exists, for different material as well as spiritual reasons.

To recover the consciousness of a nation may take some time, especially when the nation itself has been condemned through its own actions.

Dear children, let us pray for love to be what will reign within all these hearts, so that truth may show itself, and the souls that await it may redeem themselves.

All of this will be possible with the loving help of all My prayerful armies.

I thank you for responding to My call.

Who restores you,

Your Mother Mary, Rose of Peace
