DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED AT THE MARIAN CENTER OF FIGUEIRA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Dear children,

Today the pain of the planet and of Mother Earth, of Pachamama, is relieved by the essence and spirit of the youths of the world, who give to the Creator the offering of being in communion with all that was Created.

It is in this way that your Heavenly Mother liberates from the prisons of the Earth all the manifested Kingdoms and the great devas of Nature find again the path through which they have come to serve.

Each mineral, as well as each flower, each animal and also each elemental, feel in its consciousness the relief offered by the youth, who, with love, unite with all Creation.

Part of the unpayable debt of humanity, which has dominated and destroyed the lower Kingdoms, is alleviated, and, through the energy of Grace, impossible things reach the light and redemption.

All this is possible because the Father sees the sincere heart of His younger children, who try to reintegrate to this planet the culture of the sacred and the reverence for all that is Created.

Today the Mother of God unites with each young soul that recites with fervor and loves their union with Nature. In this way, the offering of that young soul, beyond embracing the essence of the Kingdoms, helps the sphere of the Earth, and the planet feels loved.

May this communion continue on for a much longer time; may surface humankind awaken to the truth of being in deep contact with what it still does not know: with the matrix essence of the Kingdoms of Nature.

I thank My younger children for continuing to fulfill the call.

Who blesses you,

Your Mother Mary, Rose of Peace
