DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF MONTERREY, STATE OF NUEVO LEON, MEXICO, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

While a part of humanity experiences abundance, there is another part that experiences inequality and hunger. Placing this in consciousness, I want to lead all of My children into living in the spirit of collaboration and of charity, so that these situations do not overburden so few and that humanity be the agent of the inner balance that is fundamental in these times.

When you pray with the heart, that inequality and that poverty, created by humanity of the surface, will begin to come into balance and everything that is not equitable will undergo an intense transformation.

Having as a premise the importance of balance in the consciousness, this will help all inequality to disappear from it, and knowledge, peace, and confraternity to reign.

I thank you for responding to My call.

Who loves you,

Your Mother Mary, Rose of Peace
