DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF PUERTO IGUAZU, MISIONES, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

My Crown of Twelve Stars is crowned by the essence of the most beautiful flowers in the world.

My Mantle is covered by all the leaves of the plants of the world, but My Heart is the Divine Rose that represents the synthesis of the Creation of God on this planet.

My Blue Belt is the vine of life, the one that seeks to grow, to spread, and always rise to the highest to praise God.

My Tunic is embroidered by the matrix of the most simple flowers of the world, those that express a permanent devotion to the Creator. And I am surrounded by the Rays that each Kingdom expresses on this planet, to donate itself to God.

I am the Mother of Nature and I am integrated by each Aspect of God once manifested in the beginning of this Creation.

My Immaculate Heart keeps the matrix of the Kingdoms of Nature. My Cells keep the memory and the origin of each created Kingdom.

I Am a part of Life, of the Infinite, and of the regeneration for this planet. The one who from the heart, is with the Kingdoms of Nature, will always be with Me to be able to realize the Will of God on this planet.

The Kingdoms of Nature simply need to feel themselves loved by the human being of the surface, so that they too may be healed.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
