DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE COMMUNE OF LUZ-SAINT-SAUVEUR, HIGH PYRENEES, FRANCE, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

So that there is always protection in certain spaces of the consciousness, and that this protection be maintained, not only in it but also around it, prayer and peace are needed.

When this protection is altered by situations of the external life, or for lack of a true life of prayer, situations begin to emerge that were not foreseen by the consciousness itself or by its surroundings.

It is essential, in these times, to assume an ardent life of prayer, so that, thus, protection can exist in everything.

In present times, to not truly assume the life of prayer, means to leave behind the possibility of receiving certain gifts, that will help to neutralize or to keep in balance all the currents that are contrary to what is evolutionary and elevated.

By remaining on the path of prayer, realities and experiences will be others.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
