DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE NATIONAL PARK OF THE PYRENEES, FRANCE, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

While the sacred beauty of Creation expresses itself with love, abundance and devotion, all those who contemplate it are internally helped by the immaterial Laws that act in these sacred spaces of the planet.

Thus, the human consciousness, in silence and in prayer, is worked and the deeper levels of the being are carried, with reverence and love, to the summits or to the inner places where the essence of regeneration and of healing are silently expressed for humanity.

In this way, corrupted states of the human consciousness, which lead to precariousness of the material and spiritual life, are deactivated.

That is why, the sacred places, as are the mountains, allow to enter widely, deep levels of the consciousness where redemption, healing, and forgiveness are necessary.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
