WEEKLY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Even if your eyes do not see it, there is a Universe that observes you.

Even if your mind does not know it, there is a perfect Plan that waits for you.

Even, child, if your more human side does not want it, there is a portion of Creation that also depends on your surrender.

Even if you are tired, there is a part of this Work that is built with your hands.

Even if it seems you have walked much, you have not reached the definitive path because your surrender must be absolute.

Even if Light dazzles your eyes, do not cease to contemplate it.

Even if the New Time places your being before unknown currents, bear it. Let your consciousness recognize a new universal and cosmic cycle, a new cycle for all Creation.

Even if you think, feel and live as a mind, a heart and a human body, let your humanity be transcended by what it truly is. Renounce to the illusion of the world to love the Truth. Renounce to the illusion of your own being to find what you are.

This is the cycle of transparency and of truth. Do not try to hide your miseries and neither let the worldly life hide your spiritual aspirations, the most profound feeling of your soul of finding and being the Truth.

Even if you do not know what the Truth is, recognize the illusion and move away from it. Even if the Real is unknown to you, walk towards its direction, renouncing to all lies and vain existence.

Child, let your heart emit a "yes" to the Universe and bear all that which, within and outside of you, wanted you to have said "no".

Trust in the Power of the One Who called you, because He created you for love and not for falseness; He created you for perfection and not for tepidity; He created you for unity and not for selfishness.

Contemplate the starry sky and recognize the greatness of Life. Even if your eyes only see stars and do not know about the life that inhabits them, let yourself be flooded by the Love of the One Who many times left aside all the stars you see in the sky to shelter your small consciousness.

Recognize your smallness and then, child, give thanks for the greatness of the Love of God that - among so many stars in the sky and such vast celestial Creation - have found you and called you by name.

Even if it is with the ears of the heart, listen and respond to His Call.

Your Father and Friend,

The Most Chaste Saint Joseph
