DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED ON THE SANTA MARÍA HILL, LIMA, PERU, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Feel My Love in the breeze that caresses your face.

Feel My Love in the blowing of the wind.

Feel My Love in the sound of the waves and in the harmony of their movement.

Feel My love expressed in the Kingdoms, in each part of Nature.

Because I am the Mother of nature, the Mother that regenerates the life of the spirit and of matter.

I am the Mother who gestates and conceives what is new for each being.

Therefore, feel me in each part of this Creation, because I am always present there.

Be a part of this communion with all that is created, with all that the Father created with so much Love so that His children could glorify Him and recognize Him in each aspect of Creation.

Union with Creation, between creatures and God, can be inalterable.

This sacred filiation with the Highest allows souls to find meaning in all that exists and why it exists in this way.

I would like all My children to enter into this same consciousness of union with Nature, so as to restore the deepest wounds of the Earth.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
