DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF CUENCA, ECUADOR, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

When a door of Light is opened so that lost souls may enter, another uncertain door closes so that souls may be liberated.

Therefore, each stage of the Plan that is concretized is an opportunity to awaken and assume the Divine Plan.

Within this realization there exist battles, challenges, and tests that confirm the soldiers; and all that movement also unblocks what hinders evolution.

In this cycle, the stages of the Plan will mark the different moments of concretion of the Work, which in critical and difficult times will fulfill the designs of the Almighty at any cost.

In this current of concretion, those who awaken and those who have already awakened enter; and this generates great movements, not only in the consciousness but also in the spiritual plane, where everything is defined.

It is necessary to live these times with neutrality, with a willingness to concretize projects, and, above all, to do so with love, because this will help make the most difficult moments more bearable, by being transmuted by the power of the love of the servers of Christ.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
