DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Where neither the eyes nor the mind can reach, there dwells the Heart of God.

Where only souls, spirits and hearts, elevated in worship can enter, there dwells the Heart of God.

The vision that encompasses Life and contemplates everything. Love that renews Itself, second by second and beyond time. Spirit that animates, sustains and supports everything that was created.

In the most sublime spheres of Existence, where it seems that the multiplication of Life never existed and Unity is an eternal reality, there dwells the Divine Consciousness.

Let yourselves, in this cycle, be elevated and lead to the higher spheres of Existence, so that you will find the Truth about yourselves and you do not allow being involved or deceived by the superficialities of the world.

You exist as divine creatures, manifested in this world by a superior Purpose, and despite of everything seeming to be more dense in this time and the human condition seeming to be deeply immersed in the illusions of the world, the only way to overcome your own difficulties of the final cycles without getting lost, children, is by elevating yourself to God, without ignoring your material condition, it is elevating yourself to the Divine Truth.

That is why, in this time, the Divine Messengers bring, in Their Words, revelations and an inner state that is hid in everything that We say, so that you reach the sublime spheres, so that you cling to the universal Truth and so that the Truth itself makes you free of yourselves and from the things of the world.

I bless you and I hold you in My Heart.

The Most Chaste Saint Joseph
