DAILY MESSAGE OF CHRIST JESUS, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS

In the hour of My Mercy the light of the Greater Kingdom is expanded through all the boundaries of the Earth and this Divine and spiritual Light touches all that which may be open, in soul and in spirit, so that the love of God may dwell.

During the 15th hour of each new day My Universal Consciousness gathers and congregates all of the essences that throughout time were My Favorite Apostles and who at some time carried My Redeeming Message.

For this today, in this new cycle of changes and challenges for humanity, My Power that is the Divine Power of God is propagated as a rain of Graces upon the hearts that are attentive to the sublime signs of Heaven.

Today I am before disciples from the past that, reverberating as essences inside of My Celestial Kingdom, I come to awaken to the true face of the worldly task that God has entrusted them by means of the presence of My Sacred Heart.

Dears, it is a joy to gather all of My Companions of the Cenacle, followers, devotees and those who adore My Blessed and Sacred Heart, with the aim of sharing the time of My last Mercy upon humanity.

In the merciful hour the doors of hell and of perdition for souls are closed only from the prayer of those creatures who are willing to call Me in joy and love. In this way My Arms shelter all of the necessities of My Children on the Earth and the Divine Mercy, the Source of wisdom, love and salvation, is radiated to the hearts of all of humanity, mainly towards those who would not deserve it due to the state of sin in which they live.

In this way I gather My Flocks, calling them to the time of the apostolate of prayer and of service because in this way My Heart will be present amongst the littlest and humblest souls of the world. Today you are in My Faith and in My Shelter of love.

Under the Greater Good of the Father, be blessed.

Thank you for reverencing My words with the heart!

Christ Jesus, the Redeemer of the world.
