DAILY MESSAGE OF CHRIST JESUS, TRANSMITTED TO THE VISIONARY FRIAR ELÍAS

I Am the radiant Sun of the universe, the one that radiates the infinite light of the Sacred Heart. All of those who pass in prayer through this Sun are filled by the peace of the Great Spirit of Christ.

Each soul in this time of Mercy will have the inner opportunity of merging itself with My Solar Essence because as part of the Creator God I give you the Good New and the Life to achieve eternity.

Before any circumstance of life, keep your faith united to the High because it will protect you as souls of God. Know that even in the most difficult moments My Heart will be present in all of those who call Me with sincerity.

Be in My Peace and only think and live in My Peace.

Under the Love of the Father, be blessed.

Thank you for living My words with the heart!

Christ Jesus, Eternal Peace.
