DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED DURING THE JOURNEY FROM BAHÍA BLANCA TO BUENOS AIRES, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Raise your heart up to Heaven while you are on this Earth, so that through prayer you can be close to God, and in spite of what you believe or not to be purifying, you know the time of surrender has come.

Sustain your life based on the expressions of the degrees of love, thus you will allow the true Christian principles to flourish in you.

Child, this life is a path full of challenges and of transcendences; when you just are able to take a step towards the Truth, your soul is liberated from the chains of pride and of the lie.

Go beyond the hard shell of indifference with the strength of love and the impetus of service; in this way, you will know that within you there is a universe which is still unknown to you.

Open the correct door with the correct key. May your spirit today be magnetized with a courage capable of helping you to transcend barriers and to overcome the tests of your own consciousness.

Start by taking the first step towards yielding, and the old human being who lives and acts through your mind and your actions will lose strength, since you will allow the Ray of Redemption to transform your being.

If you want to change the world, first begin with yourself; be generous, efficient, and give of yourself all the time, so that before you the love of the sincere heart gradually opens the doors on the paths of Christification.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
