DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY LUCÍA DE JESÚS

To live the Love of God publicly is simple and it is a part of the mission of the apostles of Christ at this time, and all times, because they must announce to the world the Gifts and Blessings from the Divine Presence. But today, child, I come to teach you to secretly be with God and to build the foundations of your transformation and the consolidation of your surrender because thus, your simple presence will be the announcement of the Divine Presence, it will be the testimony of the Gifts and the Blessings from the Creator.

Today, I come to teach you to love to be with God and to look for every possible space in your life to find Him, to speak with Him, to be in Him and He in the world, through you.

That being with God is not an obligation for you, but yes, a necessity.

The final test of this humanity and the last definition of the souls are approaching. Your Father and Lord aspires to build a fortress within you, to deposit within you His Wisdom and make of your heart a door through which He will arrive to the world.

Therefore, the time has come to strengthen your ties with God, to learn to love the manifestation of His Plan within you, more than outside, because if God's Plan is not fulfilled in you, you will not be able to externalize it in the manifestation of His Work.

Grow with God so that His Work also grows through you and the redemption that He manifests in your life extends to the whole world.

Love to discover and to know God deeply in the secret and in the silence of your heart. Become a fundamental stone of this construction of the new time, the new world, the new man.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
