DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Just as the signs in the sky announce, clear and beautiful to the eyes that know how to see them, so God arrives on Earth and manifests within and outside of humankind His Splendor and His Grace.

As simple as contemplating a rainbow that emerges on a cold afternoon in the Earth's sky, and makes hearts happy, so should souls contemplate the presence of God within themselves.

The Celestial Universe, beautiful and sublime, is as simple as the things that truly make human hearts and souls happy; but to attain it, it is necessary to seek it with the same love and will with which you seek the signs that are manifested in the sky.

Within you lies a mystery hidden behind what you think you are. This mystery is the Sublime Universe of God, whose doorway is not in the heights, among the clouds, but in one's own heart.

God makes Himself as accessible to the spirits of humankind as the beauty of a rainbow is to your eyes. But just as you seek the rainbow and find it, so also your spirits must seek that which nourishes, brightens, and fulfills them, which is God within yourselves.

To find God in your own heart, you can let Him be reflected as a mirror within you. When you contemplate a sky full of beauty, when you contemplate a pure expression of Nature, do not remain only in what you see, but open the mirrors of your hearts and let that which is beautiful reveal the beauty and the purity of your spirits, that which you truly are.

Everything that was created by God is beautiful and perfect, and that same divine expression that you find before your eyes you can find within yourselves, when you open yourselves to find the Truth in your inner world.

May everything uplift you.

May everything bring you to God.

Your Father and Friend,

The Most Chaste Saint Joseph
