**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Listen to the Heart of God, which beats in the silence of every human heart. In prayer, unite your spirit with the Spirit of the Father, and grow in virtue, in gratitude, and in love, because the world needs it.

The moment has come in which the planet has also entered into its agony, just like you, child, deep within yourself, can feel the agony that precedes a great surrender and the triumph and the renewal of the Love of God.

Listen inside of you to the Heart of God, because in this cycle that is beginning, only He will be able to guide you in your actions, thoughts, and feelings; only with your spirit united with His will you be able to discern in order to take sure steps and without fear.

Listen to the voice of God within you, unmistakable, impassive, transmitting stillness to your soul and strength to your heart.

The agony of the planet is beginning, and just as you were and are tested in the temptations of the world to persevere in your surrender to God, so also the nations and their people will be tested, and one by one, will be confirmed in their surrender to and union with the Father, so that they may be the cradle of a New Life.

You should pray and unite your heart with the heart of God, doing the greatest and grandest service, keeping the door of the human consciousness open to the Heart of the Father, so that humankind may not lose the link with their Creator.

Do not fear nor be sad, rather just maintain your heart in God. You know the Cross of the Lord and know that, after sacrifice, humiliation, and surrender comes the renewal of Love. Therefore, concentrate your heart on making your offer real, and may every second of your life in this world be for the renewal of the Love of God, be a brick that you place on Earth to build the New Life.

For this, you have my blessing.

Your Father and Friend,

The most Chaste Saint Joseph
