DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRASIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Child, I know that it is hard and painful to see that the world agonizes because of ignorance, blind to the Light and the Love of God. Think of your Creator Father, with arms extended to all creatures, with the Fount of Mercy streaming out from His Bosom, even though His Children do not want to receive this gift.

Contemplate the Firstborn Son, reliving His Wounds, again and again, to give beings a new possibility of experiencing and multiplying Love.

Contemplate the Eyes of compassion of your Lord, which observe the world, waiting for hearts to open to His Grace, to His path of Love.

Contemplate the Spirit of God blowing like a breeze and touching the faces of beings, waiting for them to open themselves to deeply breathe of this Divine Breath, so that beings may purify and consecrate themselves to the Spirit of God.

See that the whole Universe has its eyes on the Earth and place your heart there. Let your attention be on the Hope of God and not on the ignorance of humankind, because the Earth will tremble and everyone will experience the consequences of human blindness, but those who have their hearts in the Heart of the Father will not lose peace, faith, or the fortitude of their spirits and will be the forerunners of a New Life, establishing peace together with Christ, on His return to the World.

Do not forget My words and live them, because everything has already begun and hearts are not ready yet for what is already precipitating over the Earth.

Live in God and do not allow the world to close the doors to His Heart. Be a bridge between the Heart of the Father and the heart of humankind, no matter what comes to take place on Earth.

Your Father and Friend,

The Most Chaste Saint Joseph
