**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED ON THE EAGLE OF LIGHT BUS,
DURING THE TRIP FROM THE CITY OF MONTEVIDEO TO THE MARIAN CENTER OF
AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Dear companions in Christ,

With love I tell you that, while there is still time, learn the art of elevation and concentration, the fruit of the consciousness that understands the moments it lives and the Grace of all that it has learned.

In a short time, dissociation will be a law on Earth, and those who do not know how to live by laws that transcend material existence will risk losing their own mental, emotional and spiritual control, when immersed in the laws of chaos.

Today I will ask you not to listen to My Words like so many more you have listened to over the years, because every spoken phrase brings a precise instruction for the end of times. That is why the fact that you have received a certain instruction will already signal to the universe that you are able to bear the trials that will come and that will make you put into practice all that We have taught you.

I ask you to observe, in your lives, how the retrograde energies have already gained a certain degree of incentive with the technologies and astral and mental stimuli in general. Now, think: if within a group aura prepared by God to withstand important negative strikes, the forces of darkness still manage to penetrate and influence, even if not as intensely as the influence of Light, how would be the minds of the governors and consciousnesses that handle in an uncontrollable way the energies of power and of property?

The craving for power is growing in a misguided way and - as these consciousnesses acquire more power and property in relation to things and people - their ambition grows and the sensation that they are invincible seizes their minds and their hearts.

I must speak to you in a clear and direct way, because the forces of darkness are no longer hiding among men and, thus, neither the Light can hide itself, for with the same intensity it must reach the world, so that the consciousnesses can find the balance before themselves and can elect their choices between the Light and the darkness, which in the same proportion present themselves.

It does not mean that Light and darkness have the same intensity in Creation, for they will appear in the world with the same proportion only for the definition of beings and for their learning, because the Light will always prevail and, even though the night seems too dark and endless, it will last the necessary time for all to define themselves

and soon a new Sun will rise, more luminous than the one you know, to obfuscate the eyes of those who only see in the darkness.

This will be the hour of awakening, and everyone will be aware of their choices, even if there is no time to turn back. This will be the moment to reap the fruits of the planted seeds and assume the decisions you have made.

I tell you this because, before the night rushes into the world, you must be with your eyes wide open and your consciousnesses forged in the fire of Christ for your elevation.

Do not listen to me in a symbolic way anymore. I speak to those who know how to listen, for only they will make of themselves the expansion and transmission of the Message to those who have been deaf when God has issued His Holy Voice to the world.

Growth and peace for all.

The Most Chaste Saint Joseph
