DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

From the Supreme Consciousness of the Creator, the Ray of Will is born. This ray is a principle of creation, used by God to manifest His greatest works in the world, in the universe and in the interior of all creatures.

The Ray of Will unites the wills of creatures to the Supreme Will of God. He allows beings to transcend force and to act on the basis of Power, which - for a matter of Divine Creation - exists latent in all the essences manifested by the Father.

The Ray of the Will of God is the one that opens the door to the other Rays that unite life manifested in matter to universal life, such as, for example, the Ray of Transcendence, the Ray of the Liberation, and the Ray of Transmutation.

It is the Ray of Will that allows creatures to pierce the layers of illusion and to find the truth.

Why do I tell you this? Because, in times of spiritual inertia in humanity, so that you do not remain stuck in evolution, and even, so that you do not backtrack, you need to know the Ray of Will, which in no way resembles your personal will.

The Ray of Will is the possibility of living in your own hearts the Will of God and, thus, of being as He expects of His creatures.

Treading the spiritual path is like climbing a large spiral staircase and, on every turn you take in this climb, you find an obstacle imposed by your own consciousness.

The staircase is the representation of the being in evolution. It has, within itself, the possibility of rising. All the steps it needs to climb are present in its own constitution, as a creature of God. It just needs to figure it out to get out of illusion and open up to its true inner potential.

The beings of Earth clung to the human way of life and, in the confusion of all energies that direct the third dimension of the planet, they held on more to pleasure than to the unique learning of Christic love, which only in this world they can live.

When the consciousness awakens to the true purpose of its existence, it must overcome all the aspects acquired by life on Earth that are part of its human composition, but which have not adhered to the purpose of its consciousnesses. Then, constantly, you enter a network of conflicts with yourselves, because you want and do not want to live the spiritual life.

As the spirit strengthens and the soul confirms its aspirations, they gain influence over matter and, gradually, begin to draw divine principles from Heaven, such as the Ray of Will, to convert, transmute or transcend these aspects.

The vehicle for you to reach the Ray of Will is the material attribute that precedes it, that which is called effort and also persistence. By working on these two things, with regards to the control of thoughts, feelings and actions, you will find, almost without perceiving it, the Ray of Will.

I do not tell you not to think, feel or act in certain ways, because that would lead you to frustration and hopelessness. I ask you to strive to cut off the flow of thoughts and fantasies that lead you to the abyss, beyond the feelings that lead you to perdition and separateness, and actions that do not build reverence within your cells and your material consciousness as a whole.

Rising after each fall and remaining in the spirit of faith, you will find the Will of God and merge into it, so that you can live your own transformation in Christ.

Peace, persistence and Divine Will, to dissipate fear, hopelessness, false power and the will of the human consciousness.

Your Beloved Father, Companion, Friend and Instructor,

The Most Chaste Saint Joseph
