DAILY MESSAGE OF SAINT JOSEPH, TRANSMITED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS

The manifestation of the Plan of God has as its vehicle the energy of the celestial rays. These rays descent to the world through the law of attraction or the law of correspondence and, thus, permeate those consciousnesses which, both internally and externally, are willing to live, in themselves, the Will of the Supreme God. Gradually, this Will takes its place in the life of the planet and, one by one, permeates beings who are inspired by the examples of others to transform their own lives.

Just as happens with the individuals, happens with the archetypes of life, such as society and the life in different nations. Many wonder where the manifestation of the new humanity will come from and from which principle it will arise.

When the human beings congregate to unite their willingness to manifest the Plan of God and thus attract the creating archetypes of the celestial rays into life, these rays descent not only into individuals, but - also through them - permeate the group consciousness and direct naturally the group life for the manifestation of what God thought for the human society.

Sacred human life, always directed towards obedience to the Divine, will begin to appear in small points of light in the world. Just as individuals inspire others to take new steps through their own transformations, the small communities that exemplify a fraternal and Christic life, in an archetype of human society, will inspire masses of people and even nations to follow the same example. This is how the new humanity is born.

The new humanity is the fruit of the effort of each one. Afterwards, it will have its cradle in the union of the efforts of two or more, which begin to constitute a group life, and thus, little by little, expand this sacred life to the world, consecrating it to the Plan of God.

It is for this reason that I ask you to never think that your efforts will not suffice, because sometimes you will seem to paddle against a current of billions of other human beings who do things contrary to the Divine Will.

Christ was also one, but His love for God and His Plan changed the destiny of mankind. Today, you are much more than one: you are millions of followers of Christ, who must begin to unite to fulfill the goal of changing the destiny not only of humanity, but also of the entire Creation.

I bless you and guide you always.

The Most Chaste Saint Joseph
