**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED ON THE EAGLE OF LIGHT BUS,
DURING THE JOURNEY FROM FLORIANOPOLIS TO PORTO ALEGRE, BRAZIL, TO THE
VISIONARY SISTER LUCÍA DE JESÚS**

If you are peaceful in your lives and in everything you seek unity and harmony, you will be able to perceive the union of the times and what it causes in the consciousness of humanity.

If you enter into prayer every day, seeking to truly feel what is happening in the spiritual life of the planet, you will realize that the conflicts and wars that are happening in the world today are not like those that happened in the past.

Just as the good that permeates the hearts at this time sanctifies them and fulfils them in order to bring them to Christification, the evil that lives today in some human beings is destructive even to the essences and the spirits of beings. Everything is intensifying; everything is growing in unbridled proportions, both for good and for evil. And this, the heart that prays can feel and live. I tell you this, dear ones, because you must learn to deal with the situations that are present in the world today.

The real time of the universe is beginning to unite with Earth's time and human consciousness will also begin to feel its true creative potential, both positive and negative. The thought and the verb will have more power than ever; so we ask you to pray, pray without ceasing to balance and oppose the evil ideas that infernal plans try to shape in the minds of the human beings and manifest in Earth's life.

You should never fear, because the greatest tool of the human being is the heart, not the mind. There will be no evil thought that is not destroyed and erased by the sincere and full prayer of a heart that responds to the call of God. It is only necessary that you pray, truly pray, with love, with conscience, filling the verb with the intention that the Will of God be reflected in the planetary consciousness.

When God's time approaches Earth, your spirits also draw near and your souls are filled by the impulses of the true being. Therefore, when you enter into prayer, seek what you truly are. Get in touch with your own essences by means of silence and peace and receive from it all that you need to live today in union with God and His Plan.

You know that humanity is very ignorant in relation to the truth and few understand what the Divine Messengers are trying to transmit to the world. Therefore, it is very important that those who are conscious and who understand, at least a little, the Will of God can live what we teach, thus opening the door for others to follow the same path.

As you take your steps, dear ones, new opportunities will open up so that you can know

ever greater truths and so that those who are stuck in their evolutions can be propelled and take the first step.

I love you and that is why I instruct you so that you not only know the Will of God, but also live it.

Your Companion of always, The Most Chaste Saint Joseph
