DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

For unity to be on the planet, there must be unity in the hearts, between each being and God and among the builders of the new life, the so-called servants and consecrated of this time.

Do not be afraid. The world agonizes and the nations tremble, the trials of the planet have begun, but if in your hearts there is peace and unity, nothing that will happen in the world will shake you or destroy your faith.

I come to help you set your eyes and your hearts on high, on the Divine Purpose and on the Plan of God that is designed through your lives.

I am not asking you to be estranged from or ignorant about what is happening and will happen in the world; I only ask you to keep your hearts in God, because the time and the hour for carrying the cross of the world and the cross of the triumph of Love, inside and outside of you, have already come.

Just like your Lord, Jesus Christ, you will live humiliations and loneliness, you will live agony and sadness, but above all, you will live the unity with the Mother of God, you will live the love and the faithfulness of those who will accompany Her steps until the end.

Grow and put the purpose of your lives in the establishment of a Greater Plan. You are no longer children before the Father. Christ calls you companions; I call you friends, because this is what you must be in this time; faithful before the Greater Will, fearless before the trials and willing to carry, together with Christ, His last cross, which is the cross of the world.

When your Lord carried the Cross on Calvary, He opened the doors to a new time, instituted Grace and Mercy for the world and granted humanity a new opportunity so that it could build within itself a new human, a new life.

A lot of time has passed since that event; a lot you have already learned as beings and as humanity. Now it is time to seal your commitment and open the doors so that your Lord may return to the world, not only to bring Peace, but to teach you how to carry, with Him, the cross of the last days.

Do not run away from this cross anymore. Do not leave Him alone. Be faithful and be companions, as He hopes.

Withdraw your hearts from the suffering and put them in the establishment of love. Let everything be an opportunity to surpass yourselves and to love more, just as your Lord surpassed not only Himself, but also His Father, for the love of all of you.

Place your spirits and hearts within the goal of loving.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
