MESSAGE FOR THE APPARITION OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

My children,

Today, contemplate the Divine Creation under My Mantle, because, as the Mother of Life, I come to reveal to you the mysteries of the Sources that inhabit the Cosmos, as extensions of the Divine Consciousness; Sources in which, all that is manifested life, was generated.

Contemplate, under My Mantle, the Infinite Consciousness of God, which expresses itself in the divine dimensions as an immense Light, a Light that holds in itself all colors and all sounds. This Light, which dazzles eyes and hearts, but fills them with Its magnitude, is the Divine Consciousness. As an infinite and eternal lake, whose silence vibrates in an unexplainable way for the human minds, and is only palpable for the heart, this is God.

Contemplate this Fountain of Light. Feel the vibrations that emanate from It, as invisible waves which cannot be seen but which are felt, because they contain the creative principles, particles of life.

From this Infinite Fountain, which is the Divine Consciousness, emanated other smaller Fountains in the Cosmos; they are called smaller due to their celestial hierarchy, but are so full and perfect, as God Himself, because He finds His Dwelling in these Fountains.

The Fountains of Life, which are the very own manifested Divine Consciousness, communicate through a network of Sublime Mirrors which carry Love, Grace and the Creative Power beyond the dimensions, recreating and renewing the Creation. These Sublime Mirrors receive, from the Eternal Father, His principles of manifestation and life, and thus create and feed the new Fountains with the celestial principles that come from the Heart of God.

The Sublime Mirrors are the arms that work and the Divine Word that is manifested in the vast Cosmos and, beyond it, in all life. The Sublime Mirrors are, within themselves, the Science of Creation for they hold inside the mystery of the Perfection of life.

The Perfection that derives from God is poured onto the Sublime Mirrors and through them, it reaches everything that exists. From a small flower to a galaxy, the Perfection of manifestation is conducted by the Sublime Mirrors, and through them it permeates life and allows beauty to exist, it allows the same Perfection of God to exist in the expression of life, in nature as well as in the universe.

The Sublime Mirrors, My children, have the oceans as their dwellings on Earth because the purity of waters and the sea beings allow Perfection to reach matter and to be renewed in order to radiate to all life on the planet. The oceans are thus the link between the Creation that manifests on the planet and the Perfection of the Divine Consciousness. Through them, beauty, grace and life can exist.

If the oceans die, life also ceases to express itself as a likeness of the Divine Consciousness because the Sublime Mirrors, which bring the vibrations, the Love and the Perfection of God, would no longer find their dwelling.

If the oceans become ill, the Kingdoms of Nature, the consciousness of the planet and the human beings will become ill because the Perfection of God will no longer manage to express itself with plenitude of life on the Earth. This causes illness, chaos and evil to permeate the Earth, within and outside of beings.

Today I come to make you aware of a higher life so that you may expand your knowledge and, above all, so that you may expand your hearts and understand that, in order for harmony to exist and for humanity to keep evolving and expressing itself as a Project of God, all kingdoms must be respected, loved and taken care for by men.

Understand the oceans as a Divine Dwelling, as a bridge to God within the Earth. And thus, love, respect and revere these great Mirrors of Light that grant you life.

Today I bring you and reveal to you the Sublime Mirrors of Creation and, just as I manifest them in My Heart, I also reveal to you this presence in the oceans.

Know how to love life, My children. Know how to revere the Divine Presence that expresses itself on Earth and be part of this Whole by living in harmony with all the Kingdoms of Nature.

Pray for the oceans and commune with them from the Perfection of God.

I bless you and thank you for awakening to divine knowledge, for opening to universal science and for loving the oceans as you love God.

Your Mother Mary, Rose of Peace
