DAILY MESSAGE OF THE GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Songs of Figueira - "Come brothers"

In this song we find several keys that reveal to the consciousness the correct procedure to be able to access, in an appropriate way, the subtle vibrations of the Cosmos.

Beyond being a procedure itself, the song "Come brothers" represents an inner invocation, a call of the souls of the Earth that aspire to reach that union with the infinite and with all of its spheres.

In order for that to be possible, the song points out a few basic rules to be able to contact all that exists and all that inhabits the Greater Universes.

The first key is to change the attitude, to say "yes" through prayer, alignment and elevated singing; to change the vibration in order to be in the correct attunement and on the correct plane.

That door will open through the channel of devotion, because devotion will take us to express what we truly are, beyond appearances and methods.

When the consciousness manages to change plane and vibration through prayer or elevated singing, it is from that point that other Laws, attributes and principles, held in the inner world of each being, begin to be visible and available for the materialization of the Divine Will. Because on changing planes, the consciousness distances from errors and their consequences.

The second key presented in the song is the act of sharing, from inner world to inner world, all the good that each consciousness has, transcending the limits of their own provisioning and the distrust that may exist.

In that sense, dying to self, at each moment, the soul incarnated on Earth will be able to serve with joy to the inner siblings, and thus, the consciousness will be granted the cosmic grace of freeing itself from debts, breaking the ties and the limitations of matter, attaining, little by little, the phases of inner transcendence.

This awakens in the consciousness a sense for the reverent and for the sacred, merging its spirit into the song and into the honor to the inner siblings, creating in this way, an alliance with the Universal Brotherhood and opening the spaces to continue towards the infinite.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master, Christ Jesus
