DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF FLORIANOPOLIS, SANTA CATARINA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The Healing and the forgiveness of the past - Part 1

In the beginning, when God created His creatures, He thought of leaving in them something that, being valuable for the Spiritual Universe, they should learn to find within themselves.

This Gift and, at the same time, this potential that God deposited in His children, would give an impulse to the great change throughout the times and would generate the renewal of Creation on the spiritual, mental and material levels.

Thus, His creatures were evolving and living universal and internal experiences, but after the great fall of the adversary, the errors and faults began to manifest themselves.

All these events that happened once in the Material Universe were the result of the lack of obedience to the Divine Will; this caused the school of duality to manifest itself.

From then on, many humanities underwent different learning experiences and tests, which in most cases, led them to the internal and spiritual decadence.

But all this was happening because the creatures, created in the image and likeness of the Most High, were forgetting to go within themselves to find love, which is the matrix that heals and forgives all.

Each being of this planet carries a spiritual history that is still unknown to them, which, however, their spirit holds with total consciousness, beyond the fact that the conscious world of the being does not know anything.

This cosmic history is registered within the Universe, which must still be healed by means of the school of love and forgiveness, that this planet offers.

This is the time of the great and true miracles that will allow souls to liberate themselves from the chain of errors and all consciousnesses to be rehabilitated by living the path of redemption.

It will be in such simple way that the history of the past will be healed by the Fount of the Love of God.

The time and moment has come for the Universe to be able to breathe and liberate itself from hundreds of stories and facts that have led creatures of God to the path of suffering.

It is in this way that the Spiritual Hierarchy comes to extend its hand and to sustain those consciousnesses that accept, in total trust and love, to forgive and heal the spiritual past that was

once lived and experienced in other stars.

The Mirrors are preparing to put in evidence the history kept in many humanities in order to attract inner reconciliation and the much necessary relief after eras of events that led consciousnesses to separate from Love and from the Truth.

For this reason, children, the time will come of the end of an end, of the beginning of a new stage in the higher and spiritual life of souls.

The Spiritual Universe will open as a repairing and healing fount so as to be able to reach those regions of the Material Universe and dissolve all errors from universal memory so that all consciousnesses may no longer feel the weight of carrying an indelible past.

May, on the contrary, consciousnesses be able to believe again in the prodigies of love so that the life of souls may be different.

The Love of God will be this vital balm for the spiritual reconstruction of the Universe and for the emergence of a New Humanity.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
